

# Limited Use License

## for the Natural Touch Marketing Client Education Brochure

This Brochure is protected under U.S. and International Copyright laws. We don't like a lot of legal jargon, and know you don't either, so in plain English here's the bottom line:

*The Brochure is for your use only, and not for resale.*

**Where can I use it?** You may use this Brochure to support your practice. If you work in multiple places, it's fine to use the Brochure wherever you practice.

**Can I let other therapists use the brochure?** Yes, if they work for you in a business you own, up to a limit of 10 business locations.

**How many copies may I print?** You can print as many copies as you like, as long as you use them in compliance with this License.

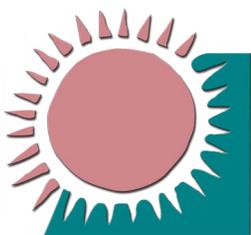

**Can I use the brochure in non-print formats?** Yes. You can use the brochure as a whole, or text from it, in non-print formats, for example in emails or your website.

**Can I extract information from the brochure to use in other ways?** It's fine to use text — but not the graphics — in your marketing or educational materials such as advertisements, articles, emails or websites. You are also welcome to use the text, as is or edited, in your own brochures.

**Can I change the text?** You may modify the text any way you wish. You cannot modify the PDF file as downloaded unless you own the Acrobat Professional program. However, you can extract text from the PDF file for use in your own applications. The Important Information file that came with your download gives some direction on how you might accomplish this.

**Why can't I use graphics for other purposes?** We license our graphics from other companies, and are prohibited from reselling them separate from the product that uses them. This means you do not have authorization to extract the graphics and use them by themselves in another context, such as to illustrate an advertisement or a web page. If you choose to edit the brochure text, you may use the graphics as they appear in the original brochure to illustrate the edited version.

On the plus side, you get a Brochure with gorgeous photographs that would be very expensive to acquire on your own. The downside is that these companies depend on protected use of their images and they do pursue unlicensed users. For information on licensing these and other photographs directly from the producers, visit <http://www.fotosearch.com/>.
